Naturally Superior Naturally Australian Certified Organic

Our Southern Plains Organic beef is sourced from the wide open pastures of Southern Australia, a region internationally renowned for consistently producing high quality organic cattle in a natural environment.

We partner with accredited organic farmers who share our pride in being able to present Australia's finest organic beef to the world. Year-round we purchase naturally grass-fed cattle which is free from added antibiotics and added hormone growth promotants.

AMG organic beef is processed at our state-of-the-art and export-registered processing establishment with access to most major markets globally.

With naturally healthier cattle free to roam in the fresh air and feast on grasses which are free of chemicals or pesticides, we're able to prepare more flavoursome and tender beef. From pasture to plate, you can depend on AMG for the traditional goodness of Australia's best organic beef.
